City Administrator/Clerk Craig Bohman read the Special Meeting notice for the public hearing into the record and received waiver of notice signed by all Councilmembers.

City Administrator/Clerk Bohman noted that Villa Hills anticipates receiving \$140,000 in Kentucky Municipal Road Aid in FY 2016-2017. He presented that KMA funds would be used for asphalt overlay, full depth full repair, drainage projects, concrete panel replacement, signage, crack sealing, snow removal and salting, line painting, sidewalk, curb and gutter repairs or replacements, lighting, catch basin repair or installation, patching, installation or repair of ADA ramps at intersections, and debt service for loans or leases taken to make improvements to roads. Mr. Bohman identified projects for the fiscal year that are in the 10 year road plan. He noted that KMA funds could be spent on any road or street within the city's incorporated boundary.

Mr. Bohman noted that the Local Government Economic Assistance program was commonly called coal severance funds. Counties that produce coal or have coal trucks transporting coal through them receive LGEA funds and the funds are shared with cities. Mr. Bohman reported that, while not expecting any LGEA funds, such funds received by the city will be used as a part of the city's street program including mass transit systems, streets, and roads as allowed by KRS 42.455(2)(c).

The floor was opened for public comments by Mayor Callery. There were no public comments. There being no further comments or business, Mayor Callery adjourned the public hearing.

Adjournment time: 6:22 p.m.

Respectfully submitted,

  
Craig T. Bohman, City Administrator/Clerk
