City Administrator/Clerk Bohman explained that the Local Government Economic Assistance program was commonly referred to as coal severance funds. Counties that produce coal or have coal trucks transporting coal through them receive LGEA funds. Mr. Bohman reported that any LGEA funds received by the city will be used as a part of the city's street program including mass transit systems, streets, and roads as allowed by KRS 42.455(2)(c). Mr. Bohman noted that Villa Hills anticipates receiving \$150,000 in Kentucky Municipal Road Aid in FY 2015-2016. He explained that KMA funds come from gasoline taxes paid at the pump and distributed to local jurisdictions based on a formula. Mr. Bohman presented the planned program of work from the Public Works Committee on which KMA funds would be used. Various streets were mentioned for asphalt overlay, full depth full repair, road drainage projects, drainage projects with costs split with SD1, concrete panel replacement, chemical grouting, and crack sealing.

The floor was opened for public comments by Mayor Callery. There were no public comments. There being no further comments or business, Mr. Bruns made a motion to adjourn the public hearing, seconded by Ms. Koenig, voice vote all in favor.

Adjournment time: 6:26 p.m.

Respectfully submitted,

  
Craig T. Bohman, City Administrator/Clerk
