During the pay period 7/18/2026-7/31/2026:

- Had 7 part-time staff call off for a total amount of hours of 163.5 that needed to be filled
- Had 2 full-time staff call off for a total amount of 46 hours that needed to be filled
- Had 2 full-time staff schedule PTO for a total amount of 48 hours that need to be filled.
- In addition to open shifts that nobody had picked up

Total call off hours 209.5 hours

Total scheduled time off 48 hours

Total hours open on schedule that needed to be filled due to call offs 257.5

*Every call off or opening on the shift board I send out a message for help through the scheduling system along with at least 25 individual text messages to those who have either no shifts or 1-2 shifts scheduled to work to see if I can get them to pick-up the openings first before awarding overtime.

7/18/2026 – 7/24/2026

I sent out 175 individual text messages trying to get people to work who were not in overtime.

7/25/2026- 7/31/2026

I sent out 225 individual text messages trying to get people to work who were not in overtime.

We also had to move some fulltime individuals from different shifts due to personality conflicts. That left us with additional staffing on some days and short on staffing on others.

I have attached the reports from the scheduling system that logs call-offs and my notes that are entered as to the reason.

Our crews also had the opportunity to participate in a live fire training on 7/25/2026 scheduled by our training captain. Training has been given its own category on the payroll ledger. That total was \$2,846.09.

The department has received a lot of praise for the scheduling of the live fire training. Ft. Mitchell FD, Park Hills FD, Edgewood FD and Ludlow FD all were invited and participated in the training exercise. This was a rare opportunity for our staff and the other departments to train together during live fire conditions. The departments that participated have reached out thanking us for an awesome training event and showed their appreciation.
